Nevada Department of Corrections

Public Information Office: 775-887-3309
PIO Brooke Santana Cell: 775-350-0037

Update Regarding NDOC Process for Choosing Execution Drugs

For Immediate Release
July 6, 2018

The Nevada Department of Corrections (NDOC) is updating information in regards to the lethal injection protocol for the court-ordered execution of condemned murderer Raymond Scott Dozier.

According to NRS 176.355, the judgement of death must be inflicted by an injection of a lethal drug(s). When considering the drugs to be used for the ordered execution, NDOC Director James Dzurenda consulted with the-then State of Nevada Chief Medical Officer – at that time an anesthesiologist – who approved the drug protocol.

After the expiration of the drug Diazepam, it was necessary to change the lethal injection protocol. NDOC presented a revised execution protocol to the current Chief Medical Officer. The current State of Nevada Chief Medical Officer concurred that the drugs in the NDOC execution protocol (Midazolam, Fentanyl and Cisatracurium) are appropriate and effective for the use intended. As part of the execution protocol, an attending physician, who is a practicing physician in the State of Nevada, will attend the execution.

The Attorney General's office was consulted about the method of execution challenges, including by providing general advice about the proposed manual and drug protocol under legal precedent. The advice was premised on the medical recommendation of the State's Chief Medical Officer. The Nevada Department of Corrections relied on the legal advice from the Nevada Attorney General's Office.

###

The Nevada Department of Corrections is committed to building a safer community by striving to incorporate progressive best practices in all aspects of corrections. NDOC houses nearly 14,000 persons with felony convictions in 18 facilities statewide. For more information visit www.doc.nv.gov.

Fentanyl:

100mcg/2ml (#25 ampules)- Expiration-06/2021

250mcg/5ml(#50 ampules)- Expiration- 08/2021

250mcg/5ml (#20- ampules)- Expiration- 11/2021 & #081727A, Expiration-08/2021
